## **SPRING BLACK BEAR**

"I don't know what to say. My hunt lasted 3 hours. My bear is 400 pounds, 7 foot and a potential Booner. I missed a bigger bear half hour before. I saw 6 bears in that time. The crew here took care of all of us. I will be going back for another bear hunt in 3 years when I can take my son. We stayed in the main lodge. The food and service were second to none.

Marty shot a P&Y bear the same night I shot mine. In fact 4 bow hunters took 4 P&Y bear and potential Booner all on the same night. Ron the outfitter was pretty excited that night.

Take care,  
Scott
