Senneterre, Quebec QBH1

A couple of pictures and reports from a couple of clients.

June 2006

"My clients have returned from the Abitibi region of northern Quebec, and they can't say enough about the quality of trip and the manner in which they were treated. All four harvested bears and my client that made the original inquiry said his son told him "it was the best week of my life".

Additional comments from Bill: "We had one meal at the lodge which was great." Quality of equipment provided rated excellent. "The Canadian woods were great. This was my first bear and I will go back. Our bear guides worked very hard to insure a great hunt. All the people at the lodge were very friendly and helpful." June 2006

Additional comments from Wes: "Cabin and shower facility very neat and well maintained. We had a few meals at the lodge that were excellent. Our group was 4/4 bear. Excellent service from the outfitter." June 2006
