Lake Diefenbaker, Saskatchewan SKH2

"I just spoke to my client who is on his way back from Gary's place. He said it was a great hunt and the guides and everyone involved were wonderful. He said he got a full season of Minnesota shooting in just on Monday night. Things slowed down on Tuesday and Wednesday as they were greeted by bluebird skies and temps in the 70's, but overall, he and his son were very happy with everything Gary had to offer."

Steve, OC-MN, October 2005

"Spoke to my group who just left Gary's place. Hunting conditions were less than ideal, many of the seasonal potholes were dry this year and the weather was cold and clear with lows in the teens and highs in the mid thirties. What little water there was, froze every night. Although the conditions were less than ideal, the hunting was fantastic! My client could be considered a waterfowl hunting addict and he is very particular. He is also a very

happy man. Group of four totals (two of which were very novice hunters): Day one morning shoot - 18 dark geese including a limit of specs, PM shoot 32 ducks in 40 minutes over a wheat field. Day two a.m. shoot 32 honkers PM shoot 20 ducks over half frozen water Day three am shoot - 18 geese. My client went out of his way to say that he thought superior effort by the guides and top notch equipment made the difference. They visited with other hunters in the area who were struggling to birds on the ground. This is my third year with hunters in Gary's camp and will not be my last!"

Dan, OC-CO, October 2006

"The waterfowl hunt was simply spectacular. Without exaggerating, I think we saw close to 2 million, yes million birds! Snows, specs, blues, honkers, ducks, it was unbelievable. Us six guys went through close to 8 cases of shells, and took close to 200 birds. On Monday night, we had our limit of ducks (48) in about a 30 minute period. They were mostly greenheads, with a few bull sprigs and widgeons thrown in for a little variety. The boys said that they had a wonderful time, and had never seen that many birds at one time in their lives. ... Gary and his guides do a great job and always had a plan for us to hunt whatever we wanted to."

Steve, OC-MN, October 2006
